Dear Ms. Bulkin:

We were finally able to secure the necessary signature of a representative of the facility owner (see our letter of 17 February 1981 for explanation). We hope this satisfies your requirements for our permit.

Dear Ms. Bulkin:

Reference: Hazardous Waste Permit Application for Inter-
national Signal & Control Corporation, 3050
Hempland Road, Lancaster, Pennsylvania, EPA
I.D. Number PADO54139506

Regarding the above subject, I am in receipt of a letter dated February 17, 1981, from Mr. Robert L. Shireman, Controller, International Signal and Control Corporation. Mr. Shireman makes the statement in his letter that we at High Properties have been unwilling to sign his application.

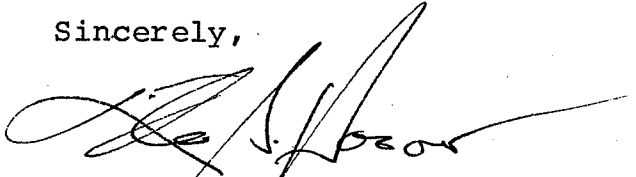

Please be advised that we are in complete agreement with your agency and support your desire and effort to control hazardous waste products. Our refusal to sign his application originates from the fact International Signal and Control Corporation has been very delinquent in the past year to complete their lease obligations. In fact, as of this writing they are several months past due in their payments. I feel certain that you, also, would be hesitant in signing this application if your role were landlord, as is ours.

As I told Mr. Jackson L. Straub, Manager Facilities Engineering, as soon as this matter is cleared up, we would be most happy to sign the application.

We would invite your comments concerning this matter.

Sincerely,

Dear Ms. Bulkin:

In response to your January 16, 1981 letter concerning our application for a Hazardous Waste Permit, please be advised that we have on at least two occasions contacted the owner of our building, High Properties, and to date the representatives of the owner have not been willing to sign the owner certification block of the application. The reason is due to a matter completely unrelated to the EPA application, waste disposal or the like. I have enclosed copies of your January 16th letter and the previously filed application unsigned by the owner.

Inasmuch as it appears that the building owner will not cooperate in the near future, please advise us if there is any alternative action to be taken to insure favorable processing of our Hazardous Waste Permit Application.

If you have any questions or comments concerning the permit or any other matters please contact me or Mr. Jackson L. Straub, Manager Facilities Engineering directly.

Very truly yours,

Robert L. Shireman
Controller

Dear Mr. Straub:

The Environmental Protection Agency (EPA) has received an application for a Federal hazardous waste permit for the facility referenced above. The Agency has reviewed the application and found that the information items marked below are missing. These items must be completed and the application returned to this office by Feb. 16, 1981 in order for the Agency to determine whether the owner or operator of the facility qualifies for interim status.

Because we received a large number of permit applications, we were able to conduct only a preliminary review of this application and will conduct a more detailed review at a later date. If we find that additional items are missing, we will contact you again at that time.

THE FOLLOWING MISSING ITEMS MUST BE COMPLETED.

- ☐ Form 1 Item XIII B Signature
- ☐ Form 3 Item IIA1 Date Operation Began or Construction Commenced
- ☒ Form 3 Item IXB Owner's Signature

If you have any questions, please contact Joan Henry on 215-597-8751 or Bill Walsh on 215-597-1230.
